Brooklyn, NY 11220

July 25, 2016

Dear Mr. Theurer,

We wish to express our heartfelt gratitude to you for your generous contribution to the NYBR Humanitarian Awards Dinner 2016. The overflowing attendance that evening was an elegant tribute to our extraordinary honoree and the extensive outreach of our organization.

Your support enables us to present important programming to diverse communities. The NYBR is committed to galvanizing the interfaith community in support of Israel and other critical global concerns, leading family violence prevention and advocacy and providing chaplaincy services in long-term healthcare facilities and correctional institutions in the State and city. Given our pluralistic paradigm, we are able to demonstrate that unity of spirit and diversity of thought can co-exist with one another.

Our honoree, Former Mayor Michael Bloomberg, through his extraordinary leadership brought our communities closer to one another. The greatness of our City is predicated on the special relationships which different faith constituencies enjoy as one human family. The NYBR dedicates itself to fostering an understanding of the Jewish faith and is also concerned with the well-being of all religious communities. We are very proud of our spiritual partnerships among different religious traditions, and we look forward to the strengthening of that bond in the years ahead.

We thank you for your beneficence and hope to share many celebrations of life with you in the future.

Best wishes,

Rabbi Gideon Shloush
President

Rabbi Joseph Potasnik
Executive President
